

PAST B.MEDIA STUDENTS

"Remarkably, I received a job several days after we finished the course in November 2006... Since then, I have been working under the title of Manager of Digital Delivery at Australia's biggest Stock Footage Company, which also doubles as a Production Company. I have worked closely with clients such as CSI: NY, Universal, Paramount and Channel 9... I definitely owe all this to the B. Media Course at Macquarie... I would recommend the course to anyone seriously considering working in the Film/ TV industry."

Ari Kuchar

"Studying Media at Macquarie gave me the perfect balance of hands-on experience and conceptual information for my role as a Web Producer."

Jeremy Lewis

"Being a Macquarie University Media graduate gave me the edge in a competitive job market... the multimedia subjects gave me valuable knowledge and skills... the degree gave me an insight into the industry in which I now find myself, and it's great to be able to put the theory into practice in 'real world' situations."

Stephen Hong

SELECTION OF MACQUARIE GRADUATES WORKING IN INDUSTRY:

Jose Alkon

Camera:
Home and Away
(Ch.7)

Jeremy Bedwani
Promotions:
Radio 2UE

Marc Brannigan
Editor:

B. Media is a flexible 3 year undergraduate degree

THINK B.MEDIA

The B. Media at Macquarie is a flexible 3-year undergraduate degree that will prepare you for a wide range of jobs in the media industry and beyond. We teach you to *think media*: What it is. How it works. Why it's important. What it will be in the future. And we teach you how to *make media*, in all its forms.

MACQUARIE UNIVERSITY

The Macquarie campus is an oasis for students. It has 35 acres of lawns, lakes, trees and gardens and fantastic sporting facilities. It has a terrific student community supported by on campus food and entertainment. It offers easy access, heaps of parking and great bus services (it's a quick ride to the City via the new Lane Cove Tunnel). And soon we will have a brand new train station of our very own.

Write a script... Shoot a film...
Write a feature story...
Build an interactive website...
Make radio... Create a PR campaign.

STUDY

Study Media the way **you** want to:

In the B. Media you can explore a wide range of media theory and production options. You can focus on one particular media form or *mix and match*. Write, shoot and produce films for the big screen. Compose feature stories for publications both print and online. Design and build websites and create cool online interactive media. Design a public relations campaign for a real-life client. Make a radio show and have it broadcast. And do it all with *state-of-the-art* digital facilities.

Head to our *Student Showcase* at www.media.mq.edu.au to see a selection of recent student films, online, writing and radio productions...

Don't forget to check out our new range of scholarships. Details at www.mq.edu.au.

OUR EXPERIENCE

Learn from experts...
Work with industry...
Study OS

Whatever you choose, we'll equip you with the skills you need to work in the 21st century media. Our lecturers are widely published academics and award-winning media producers with industry experience in their areas of expertise. You will be taught by people with knowledge and know-how.

We also have strong industry ties and a growing internship program, so you can spend a semester in a relevant work placement.

Want to study overseas? That's easy too. As part of Macquarie University's *Study Abroad* program we have designed international short courses specifically for B. Media students. These include 4-week courses in television production, print and online journalism at some of the best journalism colleges in America. With scholarships available, you will have a terrific opportunity to study media overseas.

GET A GREAT JOB!

Our graduates end up working in a range of exciting media professions, both locally and internationally, in diverse fields ranging from television to film, magazines to books, PR to advertising, online to radio. Our B. Media will open doors to cutting-edge careers.

Some of our graduates choose to pursue further study via our innovative honours program as well as our research degrees. Macquarie alumni can be found in academic careers all around the world.
